inDesign BLINDS

FABRIC COLLECTIONS & BUYING GUIDE

Roller Blinds

Custom-made roller blinds for Melbourne homes, apartments and businesses. Made to measure and professionally installed.

3	11	124	20+
FABRIC TYPES	COLLECTIONS	COLOURS	YEARS' EXPERIENCE

Simple, clean and made for your windows

Roller blinds are fabric window coverings fixed at the top of an opening. A roller tube raises or lowers the fabric, so you control daylight, glare, privacy and your view outside.

Their compact profile and clean lines suit contemporary interiors as well as established homes. Every inDesign Blinds roller blind is made to measure, with your choice of fabric, colour, fitting and operation, and is installed by our own team.

Why roller blinds

Light control
Adjust daylight and room brightness through the day.

Privacy
From daytime privacy to full night-time privacy, depending on fabric.

Less glare
Easier viewing for TVs, computers and other screens.

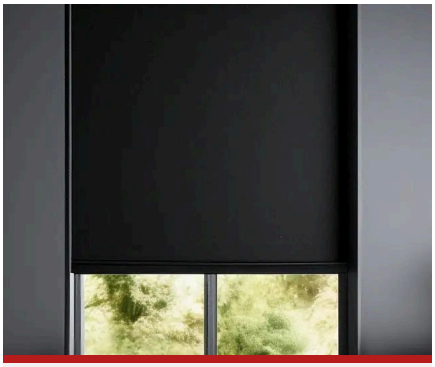
UV filtering
Suitable fabrics help protect furniture and floors from the sun.

Thermal comfort
Fabric and fit can reduce summer heat gain and winter heat loss.

Minimal look
A space-saving design that suits almost any interior style.

Three fabric types, three kinds of light

Choose a fabric for the room's purpose, the way the window faces, how much sun it gets, and how much view and privacy you want.

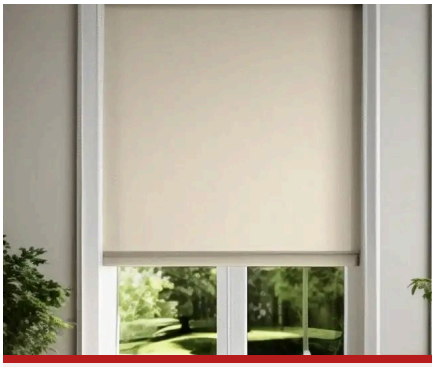


TYPE A

Blockout

Opaque fabrics for strong light exclusion and privacy. Best for bedrooms, nurseries and media rooms.

8 COLLECTIONS · 98 COLOURS

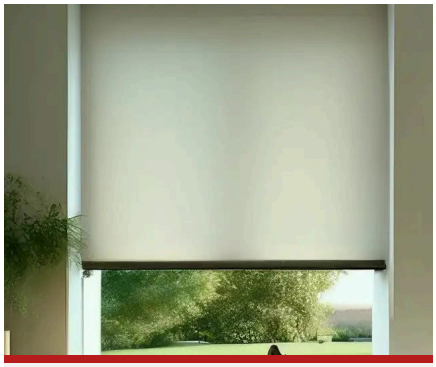


TYPE B

Sunscreen

Open-weave mesh that softens direct sun, cuts glare and filters UV while keeping your view.

1 COLLECTION · 10 COLOURS



TYPE C

Light-filtering

Translucent fabrics that diffuse daylight for a soft, even brightness with some privacy.

2 COLLECTIONS · 16 COLOURS

	Blockout	Sunscreen	Light-filtering
ROOM DARKENING	Maximum	Low	Medium
PRIVACY	Day and night	Mainly daytime	Good, softened
VIEW OUTSIDE	None when closed	Kept in daylight	Diffused only
GLARE CONTROL	Full	Strong	Strong
BEST FOR	Bedrooms, nurseries, media rooms	Living areas, kitchens, offices	Living, dining, studies

03 CONTROL OPTIONS

Manual, motorised or smart

Every fabric is available with manual or motorised operation. Choose what suits the window, the room and the way you live.

Manual

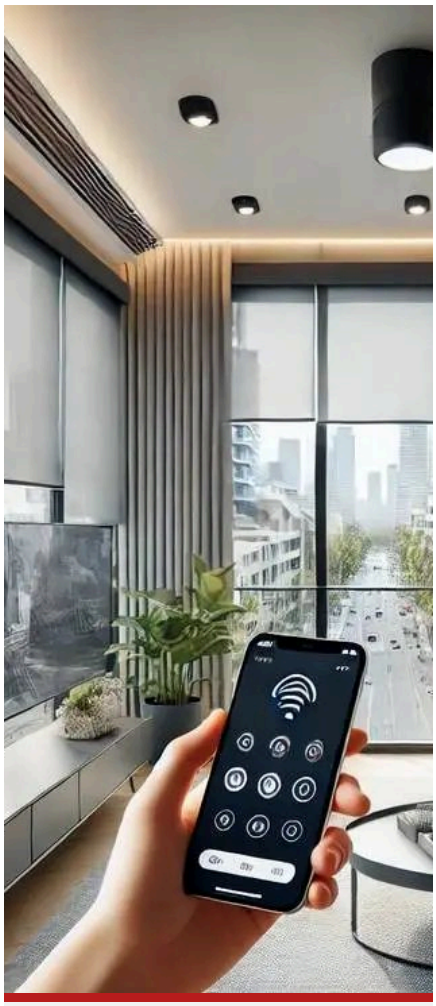
No power needed. Chain or cord operation, or a spring-loaded option, for a simple, reliable everyday blind.

- ✓ Chain on the left or right
- ✓ White, black, metal or birch chain
- ✓ Chain tensioners for child safety

Motorised

An electric motor drives the roller, controlled by remote. Ideal for large, high or hard-to-reach windows.

- ✓ Somfy motor options
- ✓ No cords or chains
- ✓ Installed and tested by our team



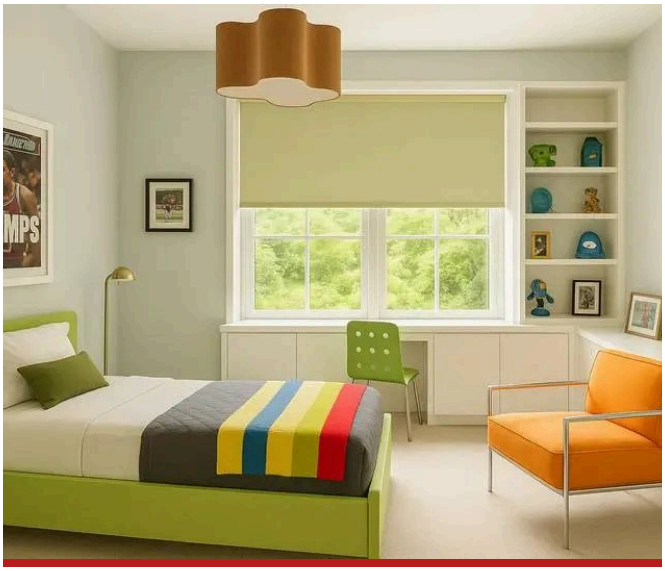
Smart

Motorised blinds that work with a compatible app, hub or voice assistant, so you can control them from anywhere.

- ✓ Schedules and scenes
- ✓ Automation by time or sun level
- ✓ Integration confirmed per install

MORE ABOUT MOTORISED ROLLER BLINDS →

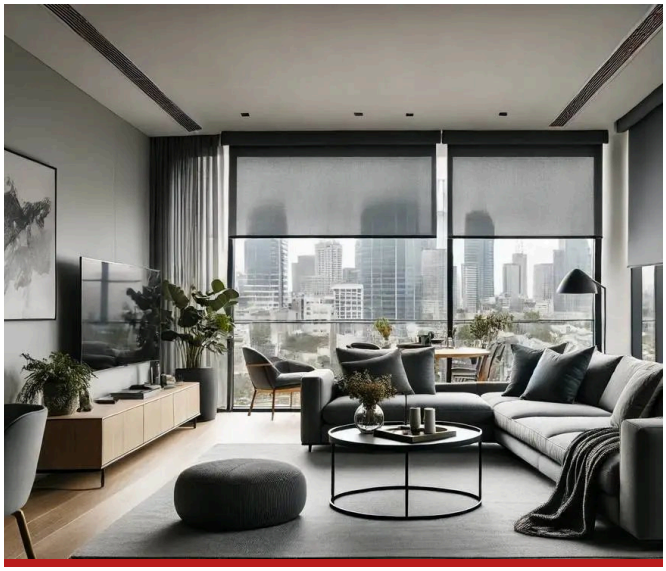
The right blind for every room



Bedrooms & kids' rooms

Darkness, night-time privacy and comfort. Blockout is the usual choice; light-filtering suits rooms that don't need full darkness.

BLOCKOUT



Living rooms

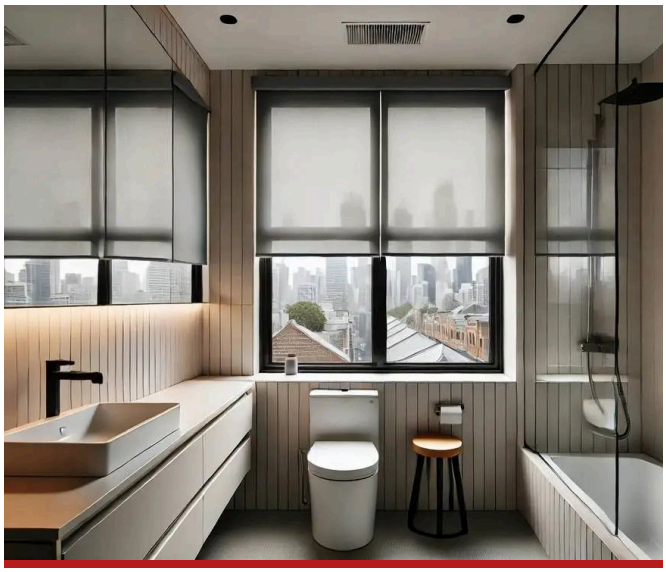
Daylight and glare control with a bright, welcoming feel. A darker fabric suits rooms with a TV or more privacy needs.

SUNSCREEN LIGHT-FILTERING

Kitchens

Practical, tidy coverings with controllable daylight and fabrics chosen for easy care alongside cabinetry.

SUNSCREEN



Bathrooms

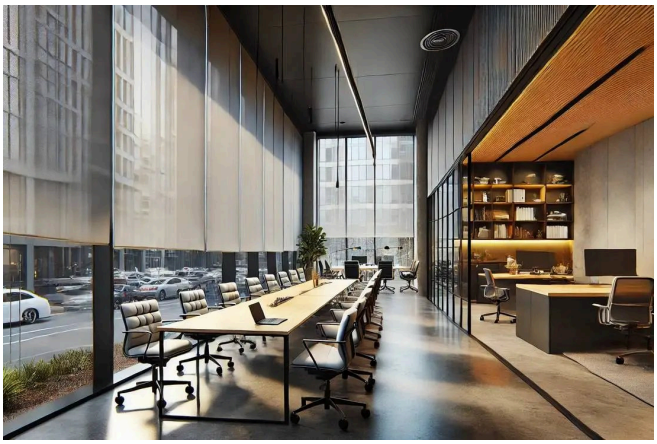
Privacy and moisture-resistant PVC/vinyl materials that handle humidity, steam and splashes.

MOISTURE-RESISTANT

> Also ideal for dining rooms, home offices, studies, playrooms and apartments. We choose fabric for how a room is used, not just what it is called.

05 COMMERCIAL

Roller blinds for business



Offices, cafés, restaurants, hotels, retail spaces and schools. Durable, easy-care systems built for repeated daily use.

- ✓ Less glare for screen-based work
- ✓ Sun control for customer comfort
- ✓ Privacy and a professional finish
- ✓ Motorised systems for large spaces
- ✓ Measure, consultation, quote and installation

06 FITTING & FINISHING

Options to complete your blind

Recess fit

Fitted inside the window reveal for a neat, built-in look. We deduct 5 mm from the total width.

Face fit

Fixed to the wall or frame face for wider coverage. Made to the exact measurements provided.

Standard or reverse roll

Fabric rolls off the back or the front of the tube, to clear handles or hide the roller.

Plain or bottom rail

A plain finish or a bottom rail for the lower edge of the blind.

Cassette

A headbox encloses the roller for a clean look and extra protection for the fabric.

Thermal fabrics

Insulating fabrics that help keep rooms comfortable. They complement, not replace, double glazing.

07 — FABRIC COLLECTIONS

Blockout roller blinds

Opaque fabrics for strong light exclusion and privacy: a dark, calm room any time of day. Ideal for bedrooms, nurseries and media rooms.

10 HOW IT WORKS

From free measure to finished install

01 Get in touch
Tell us about your space, privacy and sunlight needs.

02 Free measure & quote
We book a measurement consultation that suits you.

03 In-home consultation
We measure and recommend fabrics, colours and controls.

04 Make your choices
Choose collection, colour, operation and fitting.

05 Quote & scheduling
A detailed quote and an agreed installation date.

06 Professional install
Fitted and checked for alignment and smooth operation.

11 OUR SERVICES

Everything from measure to motorisation

Measure of blinds →
Accurate on-site measuring for a perfect fit with no gaps.

Blinds design →
Expert advice on fabrics, colours and window solutions.

Internal blinds installation →
Precise measuring and secure mounting by our installers.

Motorised installation →
Motorised blinds supplied, installed and tested.

Smart home blinds →
Blinds integrated with apps, hubs and voice assistants.

Commercial installation →
Blinds for offices, hospitality and retail spaces.

Bay window blinds →
Tailored fitting and custom frames for bay windows.

Replacement of old blinds →
Removal of outdated blinds and fitting of new ones.

Handmade blinds →
Custom-made blinds, fabricated to your measurements.

Care & longevity. Quality roller blinds typically last 7–15 years, depending on material, sun and use. Child-safe installations follow current Australian requirements.

ALL SERVICES →
